**PROFITS
WHILE ON YOUR
COUCH! \$**

A man sitting on a couch holding a green dollar sign, with the text "PROFITS WHILE ON YOUR COUCH!" above him.

Professionals are required in every area of specialization in life to understand that area and provide the solution to those who need it.

Money is no doubt the most significant substance 'without life', control over money is pertinent for proper living and survival, I mean, no one would like to go out everyday losing money. This is where REEF RESOURCES FINANCIAL MANAGEMENT, walks into the hall in style, as that is the name to mention when the case is financial.

OUR INVESTMENT POLICY

We maintain a consistent decision making process within the organization and invest responsibly as a major investment firm. By looking for market inefficiencies, we determine the gap between the optimal price and the current market price of the asset, and produce excess revenue. We look for investment opportunities through intensive research, analysis and insight. With a continuous and consistent investment approach and extensive risk management, we aim to steadily reach our investment goal. We combine our deep knowledge of local markets with the power of coordinated global oversight to drive better investment outcomes for our investors.

OUR CORE VALUES

At the heart of everything we do lies our core values. Our core values are the pillars our success story is based on.

We are par with innovative trends and prospects that is aimed at improving and sustaining the growth and ensuring the progress of Reef Resources Financial Management.

This has been pivotal in our exponential growth. To you, our prospective Clientele, We welcome you to our world of progress, financial elevation and freedom, As you become an investor!.

MYERS, ANDREW CHRISTOPHER

What we offer

FOREX TRADING: Forex is a coinage of foreign currency and exchange. Foreign exchange is the process of changing one currency into another currency for a variety of reasons, usually for commerce, trading, or tourism. According to a recent Bank for International Settlements, the average was more than \$5.1 trillion in daily forex trading volume. Because of the worldwide reach of trade, commerce, and finance, forex markets tend to be the largest and most liquid asset markets in the world.

STOCK: A stock or share or a company's "equity" is a financial instrument that represents ownership in a company or corporation and represents a proportionate claim on its assets and earnings. Stock ownership implies that the shareholder owns a slice of the company equal to the number of shares held as a proportion of the company's total outstanding shares. For instance, an individual or entity that owns 100,000 shares of a company with one million outstanding shares would have a 10% ownership stake in it.

REAL ESTATE INVESTMENT: This involves the purchase, ownership, management, rental and/or sale of real estate for profit. Improvement of realty property as part of a real estate investment strategy is generally considered to be a sub-specialty of real estate investing called real estate development. Real estate is an asset form with limited liquidity relative to other investments. It is also capital intensive (although capital may be gained through mortgage leverage) and is highly cash flow dependent. Proper management and experience is required to make the most of Real Estate.

GOLD: Commonly seen as a great store of wealth, this precious metal is also known as a reliable safe-haven asset. Although it has multiple uses, its primary function is typically to hedge against inflation in an often volatile futures market. Gold is considered a worthy investment, it has proven to be a perfect way to diversify your investment portfolio and an excellent safeguard against volatile currency.

RETIREMENT PLANNING: Saving for retirement can be a daunting task, but with a sound strategy, it's well within reach. REEF RESOURCES Financial Management is here to bring clarity to retirement planning and set you on your path to success. Here you'll better understand your options and find the right investment.

What we offer

CANNABIS INVESTMENTS: We believe that the full benefits and potential of cannabis as a medical therapy are within our reach only through supply chain transparency, an engaged and active network of cannabis users, and data that is consistently available and verifiable for medical surveys and for developing and establishing therapies and life-prolonging solutions and treatments on blockchain technology.

CRYPTOCURRENCY: REEF RESOURCES Financial Management now offers all traders the opportunity to trade a wide range of the top ranked digital coins 24/7. Today cryptocurrencies have become known to most people as a conventional and popular investment option. The main purpose of this new technology is to allow people to buy, trade, and invest without the need for banks or any other financial institution. Cryptocurrencies are highly volatile and can be profitable to any trader's portfolio. Cryptocurrencies are not physical coins they are electronic, a digital asset that remains as data.

FINANCIAL PLANNING: A financial plan is a comprehensive evaluation of an investor's current and future financial state by using currently known variables to predict future cash flows, asset values and withdrawal plans. Most individuals work in conjunction with their preferred financial planner and use current net worth, tax liabilities, asset allocation, and future retirement and estate plans in developing financial plans. These can be used to plan or make appropriate financial decisions.

OIL TRADING WITH CFD: Surprising as it might be, anyone can invest in the oil market to make a profit. Indeed, the development of online trading platforms has allowed individuals to use their savings to speculate on rising or falling oil prices. To this end, simply choose your method of trading between the CFDs offered by Forex brokers, which are specifically designed for beginners.

LOAN & MORTGAGE: Getting a loan doesn't have to be intimidating, with the right lender it can be a simple process. You only need a lender committed to taking the mystery out of the mortgage loan process! At REEF RESOURCES Financial Management, we understand! Our investors needs. DGS automatically offers loan services to investors with over \$50,000 investment either in our normal REEF RESOURCES Financial Management financial Services packages or the NFP plans.

WHY CHOOSE US?

REEF RESOURCES Financial Management is an experienced team dedicated to providing the best investment experience and top notch customer service to our investors.

We are a leading financial investment platform focusing on various aspect of finance and wealth management by providing access to over 4,000 funds and assets listed on the major capital markets ranging from investments banking, stock Broking, fund escrow services, forex, Gold and the most recently developed Cryptocurrencies, ETFs and Assets listed on the major stock markets, ISA's investment services, Pensions and insurance bonds(onshore and offshore), third party providers such as Self Invested Personal pensions providers, advisory professionals, discretionary investment managers, portfolio management, lifetime cash flow modeling and a comprehensive financial planning infrastructure for investors in a more tax-efficient way.
